MUHAMMAD UMAR FAROOQ

PowerBuilder & SQL Database Developer

+92 343 4127353 | hafizumar.r1997@gmail.com | Türkiye

PROFESSIONAL SUMMARY

Results-driven Software Developer with 3+ years of specialized experience in designing, developing, and optimizing enterprise ERP solutions using **PowerBuilder** and **MS SQL Server**. Proven expertise in complete ERP workflows (Finance, Inventory, HR & Payroll) along with database architecture, stored procedures, and query optimization. Also possesses solid working knowledge of modern web technologies including Angular and Node.js.

TECHNICAL SKILLS

- **Core & Database:** PowerBuilder (DataWindows, PFC), MS SQL Server (T-SQL, Stored Procedures, Triggers, Views, Query Optimization).
- **ERP Domain Expertise:** Accounts & Finance, Sales & Purchase, Inventory Management, Production, HR & Payroll.
- **Additional Skills:** Angular, PrimeNG, Node.js, Express.js, REST APIs, MySQL, Bootstrap.

PROFESSIONAL EXPERIENCE

PowerBuilder Developer — **PowerSoft360 (3 Years Experience)**

- Designed, developed, and maintained core enterprise ERP modules including Accounts, Inventory, Sales, and HR/Payroll using **PowerBuilder**.
- Wrote and optimized complex **MS SQL Server** queries, stored procedures, and triggers for fast data processing and reporting.
- Designed dynamic and interactive UI/reports using PowerBuilder DataWindows tailored to corporate business requirements.
- Resolved high-priority production issues, system bottlenecks, and provided database maintenance and client support.
